ACTION: Proposed rule.

SUMMARY: The EPA is proposing to grant authorization to the State of North Dakota for changes to its hazardous waste program under the Solid Waste Disposal Act, as amended, commonly referred to as the Resource Conservation and Recovery Act (RCRA). EPA has determined that these changes satisfy all requirements needed to qualify for final authorization and is authorizing the State's changes through a direct final action, with the exception of Revision Checklist 241.

SUPPLEMENTARY INFORMATION: In the "Rules and Regulations" section of this issue of the *Federal Register*, the EPA is authorizing changes to the North Dakota program as a direct final rule. The EPA did not make a proposal prior to the direct final rule because we believe this action is not controversial and do not expect comments that oppose it. We have explained the

reasons for this authorization in the preamble to the direct final rule.

Unless the EPA receives written comments that oppose the authorization during the comment period, the direct final rule will become effective on the date it establishes, and we will not take further action on this proposal. If EPA receives comments that oppose the authorization, we will withdraw the direct final rule and it will not take immediate effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.
